APPENDIX "A"

**STATEMENT OF WORK NO. 1 TO CONSULTING SERVICES MASTER
AGREEMENT NO. xxx BETWEEN (CLIENT) AND QUEST INFORMATION
SYSTEMS, INC.**

This is a complete statement of the services QUEST is obligated to CLIENT under this statement of work, and sets forth Quest's commitments with respect to manpower, costs, scheduled start/completion, service reporting criteria, standards and procedures.

1. PROJECT START DATE:	February 1, 2006
-------------------------------	-------------------------

2. DESCRIPTION OF SERVICE:

Development of an application to gather the data needed for new State filings relative to a new property tax requirement for 2006.

The application features are:

- 1) The application will be a desktop or web based application that is hosted on the Hendricks County server(s).
- 2) The application will import existing data from the HC Data Warehouse.
- 3) The application will facilitate data entry from HC personnel.
- 4) The application will capture and store data in a SQL Server database.
- 5) The application will provide a means of exporting the completed data in the format required by the State of Indiana.
- 6) The application will support multiple years of data.

Development Details:

Analysis: 40 hours.

(Determining requirements, understanding procedures)

Design: 32 hours

(Design and create the database and application structure)

Application Coding: 32 hours

(Develop and test the application and database and reports (export file))

Implementation and Testing: 16 hours

(Train users and test)

Total effort 120 hours. (Very rough estimate at this time)

The deliverables for this project are:

Deliverable #1 - Requirements documentation and database schema.

Deliverable #2 - Application source and code.

Deliverable #3 - Successful data export for the State of Indiana.

QUEST METHODS

January 5, 2006

3. LABOR

<u>Consultant</u>	Rate	Estimated billable hours	Estimated period
Consultant	\$115.00	120 hours (\$13,800)	3 weeks

4. Client Responsibilities

The client will provide access to the existing data warehouse system and the existing SQL Server environment. The client already has sufficient software licenses and processing capability to host the new application.

The above estimates are based on information supplied by CLIENT. Actual time to complete the tasks described herein may, due to circumstances beyond QUEST's control, be greater or lesser than the time estimated. While QUEST will reasonably apply its best efforts to complete project tasks in a timely fashion, the estimates provided do not represent guaranteed completion dates. Estimates may need to be adjusted as the project progresses and, based on these adjustments, additional staff-days may be required to complete all project tasks.

Upon completion and delivery of the project deliverables, QUEST will provide CLIENT with written notice that the work has been completed. If CLIENT does not give written objection to QUEST within thirty (30) days following receipt of QUEST'S notice of completion, CLIENT will be deemed to have accepted as satisfactory all work covered by QUEST'S notice of completion.

This Statement of Work, along with the Agreement and any prior Statements of Work, set forth the entire agreement between QUEST and CLIENT and may not be changed or modified except by instrument of writing duly signed in behalf of both parties.

IN WITNESS WHEREOF, the parties have signed this Statement of Work as of the last date set forth below by officials authorized to bind their respective organizations:
